Product Description

In today's life, more and more people are paying attention to their health. Going to spas, saunas, gyms for exercise, and using spa towels at home are essential parts. A comfortable towel can bring you a comfortable life.

Our spa towel collection is made of ultra-fine fibers and Egyptian cotton, whose long fibers and high density provide a soft and supple feeling. Ultra fine fiber towels can quickly remove dirt and dry quickly, making them very practical for efficient use in places. This series of towels not only has strong water absorption ability, but also has classic colors and texture styles. This towel adopts high-density weaving and fine processing technology, which can maintain its original shape even after multiple washings, without pilling or stripping. Compared to regular towels, our towels can reach a thickness of over 600GSM, and their toughness far exceeds that of regular towels.

The Spa towels collection offers a wide range of product styles, including large bath towels, face towels, and floor towels. The regular size of the bath towel is 80 * 145cm, and it can be wrapped around the body after showering. The regular size of a face towel is 32 * 32cm, which can completely wrap around the entire cheek. The bottom of the floor mat has an anti slip layer to increase its safety. In terms of color, it is even more colorful and can provide customized dyeing services.

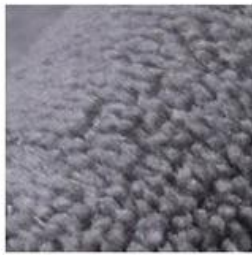

Why choose our spa towel collection

Our towel can be used in professional spas, beauty salons, high-end hotels, gyms, resorts, and homes.

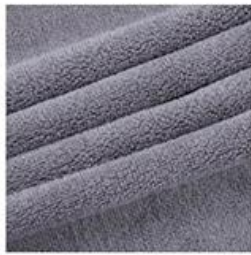

Our towels are environmentally friendly and cost-effective. All towels comply with international environmental standards OEKO-TEX Standard 100 and Global Recycle Standard (GRS) certification.
